PROFILE

- 16+ years of experience in the development of Web based applications.
- Worked as Full Stack developer, extensively using PHP, MVC frameworks (Laravel, CakePHP, Zend, Laminas), ReactJS, VueJS, NuxtJS, NodeJS, JavaScript, and managed servers.
- Goal-oriented team player, self-starter, and quick learner.

WORK EXPERIENCE

Share A Refund - Sr. Software Engineer (Edge Dev) 2024- PRESENT

I handle complete Laravel projects with Vue.js as the frontend, including new module additions and updating existing code.

eStack LLC - Technical Lead & Sr. Engineer 2019 - 2024

I supervised architecture, improved interfaces, ensured system updates for security, and managed a complex multi-tenant eStack application built on Zend Framework 2. My responsibilities included server management, module development, API integration, and system design.

Upwork - Full Stack Developer (Top Rated Plus) 2015 - 2019

As a freelancer on Upwork, I worked on a wide range of projects, from small to large, including those with complex architecture. I managed every aspect of the project, from initial planning and development to final deployment and maintenance. My role involved full project ownership, ensuring quality, efficiency, and timely delivery.

KAP IT Solutions - Web Engineer 2013 - 2015

I helped plan strategies, adjusted project plans, and worked with vendors and contractors. I managed the IT team and trained developers in CodeIgniter, WordPress, and PHP.

Cogniter Technologies - Sr. Engineer 2010- 2013

Worked with project managers, developers, and clients to resolve technical issues, trained junior developers in PHP, WordPress, and Symfony, and designed solutions to meet client needs for performance. I also reviewed project specs and helped improve team performance.

Web-X Vision - Software Engineer 2008- 2010

Worked as a standalone developer delivering small web apps end-to-end. Gathered requirements, designed UI, built backends, managed databases, tested, deployed, documented, maintained, communicated with clients, prioritized tasks, and shipped iterative releases on time.
